

It's here. . . . the time of the year when the tax preparation has begun!

With the Tax Cuts and Jobs Act" changes in effect beginning 2018, we want to make your aware of some of the other small changes.

Things you might not know:

1. This year the IRS has changed the look of the Federal Tax Returns, which includes the amount of paperwork that prints out for your return. So, don't be worried, there might be less paperwork that you receive in your tax packet this year.

2. There might be less paperwork but, it takes the same amount of time or more for the CPA's and Accountant's to prepare your tax return.

3. When the IRS had issued the Tax Cuts and Jobs Act, that also meant that the CPA's and Accountant's must stay on top of any changes, which sometimes includes detailed research.

4. The newest change that we have to offer this year is:
 - Would you prefer us to email your tax return as a PDF (Portable Document Format) attachment which is password protected or would you prefer your paper tax packet mailed to you as in previous years.

 - Either way you choose, we will mail you back your personal items that we used to prepare your tax return along with any tax forms that need to be signed and forwarded to the appropriate tax locations.

We want this time of the year for you to go smoothly and have no worries, we want to make it as easy as possible!

So, just because your Tax Packet may look a little lighter, it doesn't mean you are not getting the best service that we have to offer!
